

I am against the proposal of SB184 to give Covid-19 as a reason for mail in ballots. We are now on the other side of Covid and restrictions are being lifted. Masks are no longer necessary and positivity rates are way down. We do not need to make Covid an excuse to mail ballots in. If people are wary of being around others they can still wear a mask. Mail in ballots are not easy to control. When sent there is no verification of the person filling out the ballot. They can be lost or even destroyed in the mail. Others beside the voter have to handle the ballot after it is filled out which could lead to nefarious actions. Please vote NO Ed Vachovetz Danbury
